Public Hearing re: Draft 2018 POCD – Presentation by Horsley Witten Group, Inc.

Liz Glidden made an introduction regarding the Plan of Conservation and Development (POCD) it is required by the State to be examined every 10 years. It's a major funding mechanism for the Town. This is the third Public Meeting that we've had with regards to having a Public Workshop / this is more of a presentation / Public Hearing. I asked the Board of Selectmen to have the hearing tonight so people have an additional opportunity to speak. After the presentation there will opportunities for comments from the public. During the regular Board of Selectmen meeting we hope they will be able to endorse the plan. It would then go to the Planning and Zoning Commission for December 7, 2017 for adoption. We submitted it to our Regional Planning Agency which is River Cog. They have reviewed and they found it in compliance with the regional and state Plan of Conservation and Development. I'd like to recognize a few people here: Jamin Laurenza here who is the Chair of our Planning and Zoning Chairman, Steve Bull who was nice enough to Chair the POCD Advisory Committee. We have a number of POCD Advisory Committee here tonight who have worked tirelessly on this to make a great document. I now introduce Nate Kelly and Jeff Davis from Horsley Witten. They have been our consultants working with our community and with the data to bring us this awesome plan.

Horsley Witten began their power point presentation to the meeting.

Comments/Questions:

Milardo: The Committee is wonderful. This is a great working document for the town. We will appoint a commission to work on this plan going forward. Thank you to all who put it together.

Munster: Expressed that the train will go to Middletown and doesn't want it to become a Passenger or a freight train. **Horsley Witten:** the train is labeled a "Scenic Corridor" with the ability to connect villages

Glidden: Thank you! This has been a great process.

Approval of Minutes: Donlan made a motion to approve the September 6, 2017 minutes. No Discussion. Approved unanimously.

Public Comments: Bull, Steve: When do you vote on the plan? **Milardo:** Tonight. **Bull:** made a statement representing the 1st Congregational Church in Haddam. The erosion of the bank and the loss of tress and the paving of the parking lot up here (Old Town Hall) about 5-6 years ago there was an engineering study done by Jacobson and Associates. The slope has increased and it's making a mess of our parking lot.
