May 11, 2022

Commissioners  
Inland Wetlands Commission  
Haddam, Connecticut 06438

### **Re: Wetland Enforcement Officers Report**

All,

The following items and issues have been addressed or are still under review:

1. Continual follow up on fencing located on 968 Killingworth Road. An Inland Wetlands permit application for stabilizing the area has been filed.
2. Review possible problems with flooding at 27 old Turnpike Rd due to neighbor activity. At present no problems, property owner has had problems in the past. Involves a culvert and pipe on Town property that is possibly partially collapsed, is long and hard to clean. We have received the Town Engineers report and are attempting to talk to the owner of the property.
3. Notice of code violation due to the construction of a stream crossing in a wetlands area on the property located at 316 Candlewood Hill Rd. Met with the owner. He has retained Roger Nemergut to review, all work has stopped. I have met with the owners to discuss the repair to the property to bring it back as close as possible to its original condition.

Respectfully,

Leon S. Mularski Jr.  
Zoning Enforcement Official
