# INDEPENDENT AUDITORS' REPORT

To the Board of Finance Town of Haddam, Connecticut

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Haddam, Connecticut, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

CLA is an independent member of Nexia International, a leading, global network of independent accounting and consulting firms. See nexia.com/member-firm-disclaimer for details.

# Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Haddam, Connecticut as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information and the pension schedules, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Haddam, Connecticut's basic financial statements. The combining and individual nonmajor fund financial statements and schedules, and trend information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The trend information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Board of Finance Town of Haddam, Connecticut

#### **Report on Other Legal and Regulatory Requirements**

In accordance with *Government Auditing Standards*, we have also issued our report dated April 25, 2022 on our consideration of the Town of Haddam, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Haddam, Connecticut's internal control over financial reporting or the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Haddam, Connecticut's internal control over financial reporting and compliances.

# Management's Discussion and Analysis For the Year Ended June 30, 2021

As management of the Town of Haddam, Connecticut ("Town"), we offer readers of the Town's financial statements this overview and analysis of the financial activities of the Town of Haddam for the fiscal year ended June 30, 2021. Please read it in conjunction with the Town's financial statements immediately following this section.

# Financial highlights

• On a government-wide basis, the assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year as follows:

Change in net position	\$ 4,343,591
Total net position	43,577,807
Unrestricted net position	14,030,931
The significant fund financial factors for the increase are as follows:	
Governmental funds:	
positive operations of the general fund of	78,644
positive operations of the capital nonrecurring fund of	1,920,136
positive operations of the infrastructure fund of	(708,368)
positive operations of other governmental funds of	64,194
Conversion to accrual basis on Exhibit E:	
capital outlay net of depreciation expense of	1,488,982
net principal debt activity of	915,000
increase in pension asset	1,116,596
change in net pension liability of	406,403
amortization of pension deferred inflows of resources of	(697,014)

- The Town's capital assets increased by a net of \$1,488,982 mostly due to construction in progress activity for road and infrastructure projects totaling \$2,391,294, a used military vehicle for \$100,000 for the Haddam Volunteer Fire Department.
- The Town's long-term debt decreased by \$915,000 during the current fiscal year due to scheduled principal payments.
- As of the close of the current fiscal year, the Town's governmental funds reported a combined ending fund balance of \$18,069,048, an increase of \$1,354,606 in comparison with the prior year. The majority of the increase is due to the fund financial factors noted above.

- Positive operations of the capital nonrecurring fund was due to the transfers in of \$1,692,000 to fund current and future projects and the receipt of the ARPA grant for \$1,212,362. These amounts were offset by current year expenditures
- Negative operations of the infrastructure fund is substantially due to expenditure of bond proceeds from the prior year bond issue.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$5,401,936, an increase of \$78,644 in comparison with the prior year. This unassigned balance represents 16.15% of total budgetary general fund expenditures and transfers out.
- The general fund positive operations of \$78,644, is due to positive revenue variances (after budget transfers) of \$32,193 and spending savings of \$46,451.

#### **Overview of the basic financial statements**

This discussion and analysis is intended to serve as an introduction to the Town of Haddam's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The government-wide financial statements present the functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the Town include general government, public safety, public works, health and welfare, culture and recreation and education.

The *statement of net position* presents information on all of the Town's assets, deferred outflows of resources, liabilities, and deferred inflow of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the *financial* health, or position of the Town, is improving or deteriorating.

The *statement of activities* presents information showing how the Town's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Town's funds can be divided into two categories: governmental funds and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a Town's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

For governmental funds information is presented separately in the governmental fund balance sheet and in the governmental fund schedules of revenues, expenditures and changes in fund balances for the general fund, the capital nonrecurring fund and the infrastructure fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these other governmental funds is provided in the form of combining schedules in Schedules 3 and 4 of this report.

*Fiduciary funds*. Fiduciary funds are used to account for resources held for the benefit of parties outside the Town. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Required supplementary information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information as follows:

- A budgetary comparison schedule for the General Fund to demonstrate compliance with this budget.
- Schedules to demonstrate the Town's progress in funding its obligation to provide pension benefits.

**Other information.** Other required schedules and the combining statements and supplemental schedules referred to earlier in connection with other governmental funds are presented immediately following the required supplementary information section.

#### **Government-wide financial analysis**

As noted earlier, net position may serve over time as a useful indicator of a Town's financial position. In the case of the Town, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$43,577,807 at the close of the fiscal year.

The largest portion of the Town's net position reflects its investment in capital assets (e.g., land, buildings and improvements, machinery and equipment and infrastructure) less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

\$894,026 of the Town's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position totals \$14,030,931 and may be used to meet the Town's ongoing obligations to citizens and creditors.

The analysis below focuses on the net position and changes in net position. Unrestricted net position increased by \$1,779,061 from the prior year.

#### Summary Statement of Net Position June 30

	2021	2020
Current and other assets Capital assets (net)	\$ 20,671,772 38,812,050	\$ 19,011,431 37,389,646
Total assets	59,483,822	56,401,077
Deferred outflows of resources	179,112	435,776
Current liabilities outstanding Long-term liabilities outstanding	1,619,780 13,253,084	1,936,978 15,150,410
Total liabilities	14,872,864	17,087,388
Deferred inflows of resources	1,212,263	515,249
Net position: Net investment in capital assets Restricted Unrestricted	28,652,850 894,026 14,030,931	26,866,816 115,532 12,251,868
Total net position	\$ 43,577,807	\$ 39,234,216

Net position may serve over time as a useful indicator of a Town's financial position. The Town's net position increased \$4,343,591 as detailed below.

The reader should remember that the basis of accounting used in the government-wide statement of activities excludes capital expenditures while its revenues include general taxes whose primary purpose is for the construction of those very assets or their related debt service.

	2021	2020
Revenues:		
Program revenues:		
Charges for services	\$ 753,739	\$ 578,342
Operating grants and contributions	2,250,805	2,109,543
Capital grants and contributions	2,409,665	5,012,844
General revenues:		
Property taxes	30,537,365	30,398,767
Grants and contributions not		
restricted to specific programs	6,741	12,246
Income from investments	34,588	157,098
Other	7,463	16,527
Total revenues	36,000,366	38,285,367
Expenses:		
General government	1,462,472	1,668,930
Public safety	1,085,556	1,282,459
Public works	3,431,393	3,195,105
Health and welfare	499,555	487,206
Culture and recreation	555,973	500,632
Education	24,414,138	24,025,584
Interest	207,688	187,013
Total expenses	31,656,775	31,346,929
Change in net position	4,343,591	6,938,438
Net position - July 1	39,234,216	32,295,778
Net position - June 30	\$ 43,577,807	\$ 39,234,216

# Statement of Changes in Net Position For the Years Ended June 30

Key elements of this increase are as follows:

#### Revenues:

• Capital grants and contributions decreased by \$2,603,179 due to the net activity for the following projects:

$\triangleright$	Dublin Hill bridge grant revenues decreased by	\$1,621,521
$\triangleright$	Tylerville water project grant revenues decreased by	1,984,629
$\triangleright$	ARPA grant revenues were received during the year	1,212,262

 Income from investments decreased by \$122,510 due to the continued low interest rates because of the pandemic

#### <u>Expenses</u>

- General government expenses decreased by \$206,458 due to the decrease in pension expense
- Public safety expenses decreased \$196,903 due to a decrease in the fire department budget of \$74,864 and \$16,637 for the police budget. The balance of the decrease was due to decrease in pension expense.
- Education expenses increased \$388,554 due to the increase in the Regional School District budget assessment to the Town

#### Financial analysis of the Town's funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds** The focus of the Town's governmental funds is to provide information on near-term inflows, outflows and balances of expendable resources. Such information is useful in assessing the Town's financing requirements. Unassigned fund balance may serve as a useful measure of a Town's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$18,069,048, an increase of \$1,354,606 in comparison with the prior year.

Restricted	\$ 158,543
Committed	10,494,555
Assigned	2,014,014
Unassigned	5,401,936
Total	\$ 18,069,048

**General Fund.** The general fund is the operating fund of the Town. At the end of the current fiscal year, unassigned fund balance of the general Fund was \$5,401,936. As a measure of the general fund's liquidity, it is useful to compare unassigned fund balance to total expenditures. Unassigned fund balance represents 16.15% of total general fund expenditures and transfers out.

General fund operating results were an increase in fund balance of \$78,644. Key factors related to the operating results of the general fund were as follows:

#### Revenue factors

- Charges for services were in excess of budget by \$31,241 (after budget transfers) due anticipated miscellaneous charges
- Intergovernmental revenues were in excess of the budget by \$10,296 due to the receipt of the unbudgeted tax reimbursement grants

#### Expenditure factors

• After the transfers detailed below, expenditures were in line with the final budget. The most significant transfers were from unexpended budgets from the finance department, central services, contingency, fire protection, police, public works administration, snow removal and social and senior services were transferred to the capital and nonrecurring fund.

#### General Fund Budgetary Highlights

#### Budget Transfers

• Transfers out to the capital and nonrecurring fund was increased by \$1,267,000 funded from both additional revenue appropriations and transfers from various departments noted above as follows:

Additional revenue appropriations	\$ 730,085
Transfers from other departments:	
General government	243,852
Public safety	124,849
Public works	119,612
Health and welfare	38,602
Culture and recreation	 10,000
Total	\$ 1,267,000

**Capital Nonrecurring Fund.** This fund accounts for the Town's annual budget appropriation that is the funding for the Town's twenty-year capital plan. The 20-year capital plan includes funding for over 140 separate projects, many of which are being funded over multiple years. The capital nonrecurring fund's revenues and other financing sources (transfers in) exceeded its expenditures by \$1,920,136 due substantially to the receipt of the ARPA grant of \$1,212,362 and transfers in of \$1,692,000. The revenues were offset by expenditures of \$2,213,796. The projects to be funded with the year-end transfers will be determined through the budget process based upon the immediate needs of the Town. Total fund balance at year end totaled \$6,880,450.

*Infrastructure Fund.* This fund accounts for the bonds issued for road reconstruction projects. The infrastructure fund's expenditures exceeded its revenues by \$708,368 due to expenditures of prior year bond proceeds. Total fund balance at year end was \$3,339,666.

#### Capital assets and debt administration

**Capital assets**. The Town's investment in capital assets totaled \$38,812,050 (net of accumulated depreciation). The net increase in the Town's investment in capital assets for the current fiscal year was \$1,422,405. The Town's capital asset purchases are approved in the capital budget.

The significant items that are responsible for the increase are detailed below.

# Capital Assets (Net of Accumulated Depreciation) June 30

	2021	2020
Land	\$ 995,583	\$ 995,583
Construction in progress	8,019,845	9,021,125
Land improvements	3,340,207	3,003,887
Buildings and improvements	2,941,827	3,401,166
Machinery and equipment	1,219,785	1,248,238
Vehicles	19,377,896	3,092,069
Infrastructure	2,916,907	16,627,577
Total	\$ 38,812,050	\$ 37,389,645

Major capital asset activity during the current fiscal year included the following:

- Construction in progress activity for road reconstruction projects and infrastructure totaled \$2,391,294
- Vehicle purchases were \$100,000 for a used military truck for the Haddam Volunteer Fire Department
- Completed roads from construction in progress and current year activity totaled \$3,215,702

Additional information on the Town's capital assets can be found in Note III. D.

**Long-term debt.** At the end of the current fiscal year, the Town had total debt outstanding of \$12,860,000. All debt is backed by the full faith and credit of the Town.

Long-Term Debt June 30		
	2021	2020
General obligation bonds Notes payable	\$ 12,560,000 300,000	\$ 13,325,000 450,000
Total	\$ 12,860,000	\$ 13,775,000

The Town's debt decreased by \$915,000 due to scheduled principal payments.

The Town maintains a AAA bond rating from Standard and Poor's.

State statutes limit the amount of general obligation debt a governmental entity may issue to seven times total prior year tax collections including interest and lien fees. The current debt limitation for the Town is \$211,065,553, which is significantly in excess of the Town's outstanding general obligation debt.

Additional information on the Town's long-term debt can be found in Note III. F.

#### Economic factors and next year's budgets and rates

- As of June 30, 2021, the unemployment rate for the Town was 6.0%, which is a decrease from a rate of 7.3% a year ago. The Town's rate is favorable as compared to the State unemployment rate of 7.9%
- State revenues have shown slight increases and the Town expects to receive it second ARPA funding payment next year
- Funding capital replacement projects and other capital items continues to be the source of the financial pressure faced by the Town

The potential impact of the pandemic on the local economy, businesses and Town revenues is being continually monitored. For fiscal year 2021, there was a negative impact on income from investments, but other revenues such as building permits and conveyance taxes were positively impacted. The Town did not see any impact on tax collections for the prior fiscal year and there is no indication that there will be an impact on 2022 collections.

These factors were considered in preparing the Town's budget for the 2021-2022 fiscal year.

#### **Requests for information**

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the Town's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chairman, Board of Finance, Town of Haddam, 30 Field Park Drive, Haddam, CT 06438.

#### Town of Haddam, Connecticut

#### Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2021

Amounts reported in the statement of activities (Exhibit B) are different due to:

Net change in fund balances - total governmental funds (	Exhibit D)	\$ 1,354,606
Not only on the balances total governmental tarias (		ψ1,004,000

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

Capital outlay Depreciation expense	2,432,601 (943,619)
Total	1,488,982
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins and donations) is to increase/decrease net position. In the statement of activities, only the loss on the sale of capital assets is reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the capital assets sold:	
Disposal of capital assets	(66,578)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:	
Change in property tax - accrual basis change Change in property tax interest and lien revenue	(129,238) 3,990
Total	(125,248)
The issuance of long-term debt (e.g., bonds, notes) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The details of these differences in the treatment of long-term debt and related items are as follows:	
Principal repayments: General obligation bonds Notes payable	765,000 150,000

Total

#### Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2021

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Amortization of premium	\$ 198,342
Change in:	
Compensated absences	(3,135)
Net pension asset	1,116,596
Net pension liability	406,403
Landfill post closure liability	9,285
Accrued interest payable	3,016
Deferred outflows related to pension	(256,664)
Deferred inflows related to pension	(697,014)
Total	776,829

# Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### History and organization

The Town of Haddam, Connecticut, was incorporated in 1668. The Town operates under the Board of Selectmen, Town Meeting and Board of Finance form of government and provides a full range of services including general government, public safety, public works, health and welfare, culture and recreation, and education, to its residents. The Town is a member of Regional School District No. 17 (the "District") along with the Town of Killingworth. The District provides education for grades K-12.

The accompanying financial statements present the Town and its component units, entities for which the Town is considered to be financially accountable. The Town is financially accountable for the pension trust funds; therefore, the pension trust funds are considered fiduciary component units. The financial statements of the fiduciary component units are reported as pension trust funds in the fiduciary fund financial statements. The pension trust funds do not issue separate financial statements.

#### I. Summary of significant accounting policies

#### A. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Town. *Governmental activities* are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

#### B. Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

# Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### B. Measurement focus, basis of accounting and financial statement presentation (continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. In addition, the Town considers reimbursement grants to be available if they are collected within one year of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, pension and OPEB benefits, certain other employee benefits, and certain other long-term liabilities, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in the governmental funds.

Expenditure reimbursement type grants, certain intergovernmental revenues, charges for services, transfers and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Town.

General Fund	The Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
Capital Nonrecurring Fund	Accounts for and reports resources and expenditures that are restricted, committed or assigned for capital improvements and equipment.
Infrastructure Fund	Accounts for the construction and maintenance of Town roads.

The Town reports the following major governmental funds:

Additionally, the Town reports the following fund types:

Special Revenue Funds	Accounts for and report the proceeds of specific revenue resources that are restricted, committed or assigned to expenditures for specified purposes other than debt.
Capital Project Funds	Accounts for and reports resources and expenditures that are restricted, committed or assigned for the acquisition and construction of capital facilities, including those that are financed through special assessments.
Debt Service Fund	Accounts for and report resources and expenditures that are assigned for the repayment of debt.
Pension Trust Funds	Accounts for the activities of the Town of Haddam Retirement Plan and the Town of Haddam Volunteer Firefighters' Merit Service Retirement Plan, which accumulate resources for pension benefit payments to qualified employees.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions are charges between certain Town functions because elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

# Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### B. Measurement focus, basis of accounting and financial statement presentation (continued)

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from fiduciary net position of the Town's pension plans, have been determined on the same basis as they are reported by the Town's pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms.

#### C. Assets, liabilities, deferred outflows/inflows of resources and equity

#### 1. Cash and investments

#### a. Cash

The Town considers cash as cash on hand and demand deposits.

For cash flow purposes, the Town considers cash equivalents money market accounts and short-term investments with original maturities of three months or less from the date of acquisition.

#### b. Investments

In general, State of Connecticut Statutes allow the Town to invest in obligations of the United States of America or United States government sponsored corporations, in shares or other interests in any custodial arrangement, pool or no-load, open-end management type investment company or investment trust (as defined), in obligations of any State or political subdivision rated within the top two rating categories of any nationally recognized rating service, or in obligations of the State of Connecticut or political subdivision rated within the top three rating categories of any nationally recognized rating service. For the capital nonrecurring fund, not more than 31% can be invested in equity securities. Income from investment is recorded in the fund in which it was earned.

State Treasurer's Investment Fund is an investment pool managed by the State of Connecticut Office of the State Treasurer. Investments must be made in instruments authorized by Connecticut General Statutes 3-27c - 3-27e. Investment guidelines are adopted by the State Treasurer. The fair value of the position in the pool is the same as the value of the pool shares. There were no limitations or restrictions on any withdrawals due to redemption notice periods, liquidity fees, or redemption gates.

The Town's pension funds have adopted a formal investment policy that defines allowable investments, prohibited investments, prohibited transactions, asset allocation guidelines, diversification guidelines and fixed income and cash guidelines.

# Notes to the Financial Statements As of and for the Year Ended June 30, 2021

# C. Assets, liabilities, deferred outflows/inflows of resources and equity (continued)

The investment guidelines for both plans are as follows:

Asset Class	Target Allocation
Domestic equity International equity Fixed income Real estate and alternative	42.00% 18.00% 33.00% 7.00%
Total	100.00%

#### c. Method used to value investments

Investments for the Town are reported at fair value except as described below. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

#### Fair value of investments

The Town measures and records its investments using fair value measurement guidelines established by accounting principles generally accepted in the United States of America (GAAP). These guidelines recognize a three-tiered fair value hierarchy, as follows:

Level 1	Quoted prices for identical investments in active markets	
Level 2	Quoted prices for identical investments in markets that are not active	
Level 3	Unobservable inputs	

# Notes to the Financial Statements As of and for the Year Ended June 30, 2021

# C. Assets, liabilities, deferred outflows/inflows of resources and equity (continued)

# d. Risk policies

Interest rate risk	Interest rate risk is the risk that the government will incur losses in fair value caused by changing interest rates. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.	
Credit risk	Credit risk is the risk that an issuer or other counterparty will not fulfill its specific obligation even without the entity's complete failure. The Town has no investment policy that would limit its investment choices due to credit risk other than State Statutes governing investments in obligations of any State or political subdivision or in obligations of the State of Connecticut or political subdivision.	
Concentration of credit risk is the risk attributed to the magnitude entity's investments in a single issuer. The Town follows the limit specified in the Connecticut General Statutes. Generally, the Tow deposits cannot be 75% or more of the total capital in any one depository.		
Custodial credit risk	Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The Town's policy follows the State of Connecticut requirements that each depository maintain segregated collateral in an amount equal to a defined percentage of its public deposits based upor the bank's risk based capital ratio.	
Foreign currency risk	Foreign currency risk is the risk that the value of the investment may be affected by changes in the rate of exchange. The Town does not have a formal policy with respect the foreign currency risk.	

#### 2. Receivables and payables

#### a. Interfunds

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans).

# Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### C. Assets, liabilities, deferred outflows/inflows of resources and equity (continued)

#### b. Property taxes and other receivables

In the fund financial and government-wide financial statements, all trade and property tax receivables are shown net of an allowance for uncollectibles. Allowance percentages range from 20.2% to 28.1% of outstanding receivable balances and are calculated based upon prior collections.

Property taxes are assessed on property as of October 1. Taxes are billed in the following July and are due in two installments, July 1 and January 1. Personal property and motor vehicle taxes are billed in July and are due in one installment, on July 1, and supplemental motor vehicle taxes are due in full January 1. Liens are effective on the assessment date and are continued by filing before the end of the year following the due date.

#### 3. Restricted assets

The restricted assets for the Town are restricted for performance bonds. Performance bonds are restricted until the monies are returned to the vendor after satisfactory completion of contract or the Town calls the bond for nonperformance.

#### 4. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets are reported in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than the capitalization threshold for that asset type and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets are defined by the Town as assets with an initial individual cost by asset type as detailed below. Property, plant and equipment of the Town are depreciated using the straight-line method over the following estimated useful lives:

		Capitalization
Assets	Years	Threshold
Land	N/A	All
Building and improvements	40-75	\$ 20,000
Land improvements	40-50	20,000
Machinery and equipment	10-50	5,000
Vehicles	10-25	All
Infrastructure	30-75	100,000

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### C. Assets, liabilities, deferred outflows/inflows of resources and equity (continued)

#### 5. Deferred outflows/inflows of resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

The Town reports deferred outflows and inflows of resources related to pensions in the governmentwide statements for differences between expected and actual experience, changes in assumptions, and net difference between projected and actual earnings on plan investments. The deferred outflow or inflow related to differences between expected and actual experience and changes in will be amortized over the average remaining service life of all plan members. The deferred outflow or inflow related to the net difference between projected and actual earnings on plan investments will be amortized over a five-year period.

Advance tax collections represent taxes associated with a future period. This amount is recognized during the period in which the revenue is associated.

For governmental funds, the Town reports unavailable revenue, which arises only under the modified accrual basis of accounting. Accordingly, unavailable revenue is reported only in the governmental funds' balance sheet. The governmental funds report unavailable revenues from property taxes (including advance collections, if any). These amounts are recognized as an inflow of resources in the period that the amounts become available.

#### 6. Compensated absences

Town employees accumulate vacation and sick leave hours for subsequent use or for payment upon termination or retirement. Sick leave and vacation leave expenditures are recognized in the governmental funds in the current year to the extent they are paid during the year or the vested amount is expected to be paid with available resources. A liability for these amounts has been recorded in the government-wide financial statements.

#### 7. Long-term liabilities

In the government-wide financial statements, long-term debt and other long-term liabilities are reported as liabilities in the governmental activities' statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenses.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## C. Assets, liabilities, deferred outflows/inflows of resources and equity (continued)

## 8. Net position and fund balances

In the government-wide financial statements, net position is classified into the following categories:

Net investment in capital assets	This category presents the net position that reflects capital assets net of only the debt applicable to the acquisition or construction of these assets. Debt issued for non-capital purposes and unspent bond proceeds are excluded.
Restricted net position	This category presents the net position restricted by external parties (creditors, grantors, contributors or laws and regulations).
Unrestricted net position	The category presents the net position of the Town, which is not classified in the preceding two categories.

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

In the fund financial statements, fund balances are classified into the following categories:

· · · · · · · · · · · · · · · · · · ·	
Nonspendable	This category presents amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
Restricted	This category presents amounts that can be spent only for specific purposes because of enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors or the laws or regulations of other governments.
Committed	This category presents amounts that can be used only for specific purposes determined by a formal action at the highest level of decision- making authority for the Town. Commitments may be established, modified or rescinded only through resolutions approved by the Board of Finance.
Assigned	This category presents amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Intent is also expressed by a properly approved purchase order (encumbrance).
Unassigned	This category presents amounts that do not meet the criteria above and are available for any purpose. This category is only reported in the general fund for positive amounts and in any other fund that has a fund balance deficit.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### C. Assets, liabilities, deferred outflows/inflows of resources and equity (continued)

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Town considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the Town considers amounts to have been spent first out of committed funds, then assigned funds and finally unassigned funds, as needed, unless the Board of Finance has provided otherwise in its commitment or assignment actions.

#### 9. Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and deferred outflows and inflows of resources including disclosures of contingent assets and liabilities and reported revenues, expenses and expenditures during the fiscal year. Actual results could differ from those estimates.

#### 10. Reclassifications

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

#### II. Stewardship, compliance and accountability

## A. Basis of budgeting

Only the General Fund has a legally adopted annual budget.

The Town uses the budgetary basis of accounting under which purchase orders for contracts or other commitments are recorded in order to reserve that portion of the applicable appropriation.

Appropriations for capital projects are continued until completion of applicable projects, even when projects extend more than one fiscal year.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## B. Capital projects authorizations

The following is a summary of certain capital projects:

Project	Project Authorization	Cumulative Expenditures	Balance
Dublin Hill bridge	\$ 2,866,854	\$ 2,316,754	\$ 550,100
Tylerville water line	7,300,000	7,044,066	255,934
Bridge Street sidewalk	1,570,000	362,532	1,207,468
Route 154 sidewalks	470,750	56,681	414,069
LOTCIP	3,138,600	177,763	2,960,837
Beaver Meadow culvert	1,005,000	76,621	928,379
Sewer facility study	150,000	-	150,000
Totals	\$ 16,501,204	\$ 10,034,417	\$ 6,466,787

## II. Detailed notes

## A. Cash and investments

## 1. Deposits – custodial credit risk

At year end, the Town's bank balance was \$16,513,643 and was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$10,779,884
Uninsured and collateral held by the pledging bank's	
trust department, not in the Town's name	3,907,874
Total amount subject to custodial credit risk	\$14,687,758

Financial instruments that potentially subject the Town to significant concentrations of credit risk consist primarily of cash. From time to time, the Town's cash account balances exceeded the Federal Deposit Insurance Corporation limit. The Town reduces its credit risk by maintaining its cash deposits with major financial institutions and monitoring their credit ratings.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## A. Cash and investments (continued)

#### 2. Investments

**a.** The Town's investments consisted of the following types and maturities. Specific identification was used to determine maturities:

		Investment Maturities (In Years)		
Type of investment	Fair Value	Less Than 1	1-5 Years	5-10 Years
Pooled fixed income Certificates of deposit Bank money markets	\$ 441,172 795,789 6,373,591	\$ 441,172 795,789 6,373,591	- -	\$ - - -
<u>Mutual funds:</u> Equity International equity Bond Real estate Fixed income contract	3,448,031 1,449,574 2,591,001 259,255 292,271	3,448,031 1,449,574 2,591,001 259,255 292,271	- - 1,173,289 - -	- - 1,417,712 - -
Total	\$15,650,684	\$ 15,650,684	\$ 1,173,289	\$ 1,417,712

**b.** The Town had the following recurring fair value measurements:

	Amount	Quoted Market Prices in Active Markets	Observable Inputs
Investments by fair value level	Amount	Level 1	Level 2
Mutual funds			
Equity	\$ 3,448,031	\$ 3,448,031	\$-
International equity	1,449,574	1,449,574	Ψ -
Bond	2,591,001	2,591,001	-
Real estate	259,255	259,255	-
Fixed income contract	292,271		292,271
Total investments by fair value level	8,040,132	\$ 7,747,861	\$ 292,271
Other investments			
Certificates of deposit	795,789		
Bank money markets	6,373,591		
Pooled fixed income	441,172	_	
Total other investments	7,610,552		
Total investments	\$15,650,684		

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### A. Cash and investments (continued)

Level 1: Quoted prices for identical investments in active markets Level 2: Quoted prices for identical investments that are not active

c. The Town's investments subject to credit risk had average ratings by Standard & Poor's as follows:

Rating	Bond mutual funds	Pooled fixed income
AAA	\$ 912,529	\$ 441,172
AA	158,236	-
А	233,383	-
BBB	609,575	-
BB	325,735	-
В	229,725	-
Unrated	121,818	-
Total	\$ 2,591,001	\$ 441,172

- **d.** Certain investments are covered by the Securities Investor Protection Corporation ("SIPC") up to \$500,000, including \$250,000 of cash from sale or for purchase of investments, but not cash held solely for earning interest. SIPC protects securities such as notes, stocks, debentures, certificates of deposit and money funds.
- e. The Town's investments are not subject to custodial credit risk.

#### B. Receivables

Receivable balances have been disaggregated by type and presented separately in the financial statements. Only receivables with allowances for uncollectible accounts, including the applicable allowances for uncollectible accounts, are presented below.

	Property Taxes			
	Taxes	Interest and lien fees	Total	
Current portion	\$ 162,326	\$ 50,211	\$ 212,537	
Long-term portion Less allowance for uncollectibles	\$   204,644 (100,000)	\$    96,235 (40,000)	\$ 300,879 (140,000)	
Net long-term portion	\$ 104,644	\$ 56,235	\$ 160,879	
Totals (net)	\$ 266,970	\$ 106,446	\$ 373,416	

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## C. Interfund accounts

#### 1. Interfund payables and receivables

A summary of interfund balances is as follows:

	Corresponding Fund		Due From	Due To
General fund: Capital nonrecurring fund Infrastructure fund Grants Debt service Silver Springs fund	N/A N/A N/A N/A	\$		\$3,203,477 2,608 22,696 1,518,942 27,186
Total general fund			-	4,774,909
Capital or nonrecurring: General fund Debt service Infrastructure fund	N/A N/A N/A	3,	203,477 65,604 -	- - 10,753
Total capital nonrecurring fund		3,	269,081	10,753
Infrastructure fund: General fund Capital nonrecurring fund Debt service	N/A N/A N/A		2,608 10,753 -	- - 560,676
Total infrastructure fund			13,361	560,676
Other governmental funds: Grants Debt service Debt service Debt service Silver Springs fund	General fund Infrastructure fund General fund Capital nonrecurring fund General fund		22,696 560,676 518,942 - 27,186	- - - 65,604 -
Total other governmental funds		2	129,500	65,604
Total		<u>\$5</u> ,	411,942	\$5,411,942

All interfund balances resulted from the time lag between the dates payments occurred between funds for interfund goods and services provided or in instances where certain funds do not have a cash account.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## C. Interfund accounts (continued)

#### 2. Interfund transfers

A summary of interfund transfers for the fiscal year is as follows:

	Transfers In	Transfers Out
General fund: Capital or nonrecurring	\$ -	\$1,692,000
Capital nonrecurring: General fund	1,692,000	<u> </u>
Total	\$1,692,000	\$1,692,000

Transfers are used to move budgeted appropriations from the general fund for funding of the capital nonrecurring projects fund and various programs and activities in other funds.

# Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## D. Capital assets

Capital asset activity for the fiscal year was as follows:

	Balance July 1, 2020	Increases	Decreases	Balance June 30, 2021
Capital assets, not being depreciated:				
Land	\$ 995,583	\$-	\$-	\$ 995,583
Construction in progress	9,021,125	2,391,294	3,392,574	8,019,845
Total capital assets, not being depreciated	10,016,708	2,391,294	3,392,574	9,015,428
Capital assets, being depreciated:				
Buildings and improvements	5,574,243	61,309	-	5,635,552
Land improvements	4,204,323	23,863	-	4,228,186
Machinery and equipment	1,902,865	33,007	-	1,935,872
Vehicles	8,134,399	100,000	314,593	7,919,806
Infrastructure	48,508,678	3,215,702	1,057,441	50,666,939
Total capital assets, being depreciated	68,324,508	3,433,881	1,372,034	70,386,355
Total capital assets	78,341,216	5,825,175	4,764,608	79,401,783
Less accumulated depreciation for:				
Buildings and improvements	2,570,356	123,369	-	2,693,725
Land improvements	803,157	84,822	-	887,979
Machinery and equipment	654,627	61,460	-	716,087
Vehicles	5,042,330	254,811	294,242	5,002,899
Infrastructure	31,881,100	419,157	1,011,214	31,289,043
Total accumulated depreciation	40,951,570	943,619	1,305,456	40,589,733
Total capital assets, being depreciated, net	27,372,938	2,490,262	66,578	29,796,622
Capital assets, net	\$ 37,389,646	\$ 4,881,556	\$3,459,152	\$ 38,812,050

Depreciation expense was charged to functions/programs of the Town as follows:

General government	\$ 33,249
Public safety	272,387
Public works	603,150
Health and welfare	563
Culture and recreation	34,270
Total depreciation expense	\$ 943,619

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### E. Construction commitments

At year-end, the Town had no construction commitments as the prior year projects Dublin Hill bridge and Tylerville water line were completed.

## F. Changes in long-term liabilities

## 1. Summary of changes

Description	Original Amount	Date of Issue	Date of Maturity	Interest Rate	Balance July 1, 2020	A	dditions	Deductions	Balance June 30, 2021	Current Portion	Long-Term Portion
Bonds:											
Improvement bond	\$ 2,800,000	08/30/12	08/15/32	2.00-3.00%	\$ 1,820,000	\$	-	\$ 140,000	\$ 1,680,000	\$ 140,000	\$ 1,540,000
Improvement bond	6,480,000	05/09/17	05/15/37	1.45-4.00%	5,505,000		-	325,000	5,180,000	325,000	4,855,000
Improvement bond	6,000,000	06/03/20	06/01/40	2.00-5.00%	6,000,000		-	300,000	5,700,000	300,000	5,400,000
Total bonds	15,280,000				13,325,000		-	765,000	12,560,000	765,000	11,795,000
Direct borrowings:											
Notes payable	450,000	-			450,000		-	150,000	300,000	150,000	150,000
Total bonds and notes	\$15,730,000				13,775,000		-	915,000	12,860,000	915,000	11,945,000
Premium					795,864		-	198,342	597,522		597,522
Total bonds, notes and r	elated liabilities				14,570,864		-	1,113,342	13,457,522	915,000	12,542,522
Compensated absences	6				56,879		87,426	84,291	60,014	30,007	30,007
Landfill closure and post	closure liability				213,563		-	9,285	204,278	9,285	194,993
Net pension liability					1,096,574	1	702,010	1,489,524	309,060	-	309,060
Total long-term liabilities					\$15,937,880	\$	789,436	\$ 2,696,442	\$ 14,030,874	\$ 954,292	\$ 13,076,582

All long-term liabilities are generally liquidated by the general fund.

## 2. Assets pledged as collateral

The outstanding notes payable of \$300,000 is secured with the property purchased.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### F. Changes in long-term liabilities (continued)

## 3. The following is a summary of principal and interest amounts of bond and note maturities:

	Debt Maturities			
Year Ending June 30,	Bond Principal	Note Principal	Total Interest	
2022	\$ 765,000	\$ 150,000	\$ 380,403	
2023	765,000	150,000	356,489	
2024	765,000	-	324,990	
2025	765,000	-	294,190	
2026	765,000	-	268,177	
2027	765,000	-	240,400	
2028	765,000	-	212,500	
2029	765,000	-	184,460	
2030	765,000	-	159,280	
2031	765,000	-	136,995	
2032	765,000	-	117,605	
2033	765,000	-	98,075	
2034	620,000	-	80,400	
2035	620,000	-	64,800	
2036	620,000	-	49,200	
2037	620,000	-	33,600	
2038	300,000	-	18,000	
2039	300,000	-	12,000	
2040	300,000		6,000	
Total	\$ 12,560,000	\$ 300,000	\$3,037,564	

#### 4. Statutory debt limitations

The Town's indebtedness does not exceed the legal debt limitations as required by Connecticut General Statutes as reflected in the following schedule:

Category	Debit Limit	Net Indebtedness	Balance
General purpose	\$ 67,842,493	\$ 12,560,000	\$ 55,282,493
Schools	135,684,986	5,217,660	130,467,326
Sewers	113,070,821	-	113,070,821
Urban renewal	97,994,712	-	97,994,712
Pension deficit	90,456,657	-	90,456,657

The total overall statutory debt limit for the Town is equal to seven times, annual receipts from taxation for the prior year, \$211,065,553.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## F. Changes in long-term liabilities (continued)

The indebtedness reflected above includes bonds outstanding in addition to the amount of bonds authorized and unissued against which bond anticipation notes are issued and outstanding.

As a member of Regional School District No. 17 ("District"), the Town is contingently liable for its pro rata share of the District's debt. At year-end, the District had \$8,610,000 bonds outstanding of which 60.60% is the Town's portion which totaled \$5,217,660.

#### 5. Authorized/unissued bonds

The amount of authorized and unissued bonds for general purposes is \$1,007,250.

#### 6. Landfill closure and post-closure care costs

State and Federal laws and regulations require that the Town perform certain maintenance and monitoring functions at the landfill site for 30 years. Estimated total current costs of landfill post-closure care is \$204,278 which is based on the amount estimated to be paid for all equipment, facilities and services required to monitor and maintain the landfill. However, the actual cost of monitoring and other post-closure care may be higher due to inflation, changes in technology or changes in landfill laws and regulations.

# Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## G. Fund balances and restricted net position

Fund balances are composed of the following:

				Other		
		Capital		Governmental		
	General	Nonrecurring	Infrastructure	Funds	Total	
Restricted: Housing rehabilitation programs	\$-	\$-	\$-	\$ 93,658	\$ 93,658	
Social services programs	Ψ	Ψ	Ψ	42,349	42,349	
Town clerk programs*				22,536	22,536	
Total restricted				158,543	158,543	
Committed:						
Approved projects	-	6,880,450	3,339,666	-	10,220,116	
Health and welfare programs	-	-	-	57,208	57,208	
Insurance				134,530	134,530	
Public works programs	-	-	-	42,763	42,763	
Open space programs				39,938	39,938	
Total committed		6,880,450	3,339,666	274,439	10,494,555	
Assigned:						
Debt service	-	-	-	2,014,014	2,014,014	
Unassigned:	5,401,936				5,401,936	
Total	\$5,401,936	\$6,880,450	\$ 3,339,666	\$ 2,446,996	\$ 18,069,048	

\* The amount of net position which is restricted by enabling legislation totaled \$22,536.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### III. Other information

#### A. Risk management

The Town is exposed to various risks of loss including torts, theft of, damage to and destruction of assets; errors or omissions; injuries to employees and natural disasters. Generally, the Town obtains commercial insurance for these risks, but has chosen to retain limited risks for employee medical, dental, and prescriptions claims. The Town contracts with outside organizations to pay claims and provide administrative services. Additionally, insurance coverage has been purchased to limit the Town's liability for worker's compensation, general liability and medical claims. Settled claims have not exceeded commercial coverage in any of the past three years, and there has not been any significant reductions in insurance coverage from amounts held in prior years.

#### B. Commitments and litigation

Amounts received or receivable from Federal and State grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial.

The Town is a defendant in various lawsuits and the outcome of these lawsuits is not presently determinable. The resolution of these matters are not expected to have a material adverse effect on the financial condition of the Town.

## C. Tax abatements

The Town provides a tax abatement under the High Meadow tax abatement program. The High Meadow tax abatement agreement was created to provide a real property tax abatement to facilitate the provision of low-income elderly housing within the Town pursuant to Connecticut General Statutes Section 8-215. Under the terms of the agreement, moneys equivalent to taxes abated are to be utilized for either or both the following purpose:

- The reduction of rents below levels, which would be achieved in the absence of such an abatement program.
- To provide necessary related facilities or services in such housing.

In performing the above, the property owner receives an abatement of 100% of the real property taxes. Continuation of the agreement is conditioned upon continued compliance with the provisions of the agreement and is terminated upon sale or transfer of the property for any other purpose unless the Town has consented thereto. During the fiscal year, taxes abated through this program total \$30,867. No other commitments have been made by the Town to the abatement recipient under this program.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## D. Contingencies

#### Coronavirus

In March 2020, the United States declared the outbreak of Coronavirus a national emergency.

#### Coronavirus

In March 2020, the United States declared the outbreak of Coronavirus a national emergency. Similarly, the Governor of the State of Connecticut declared a state of emergency. Although the national shut down has ended, the Coronavirus continues to have an impact on the economy including effects on the Town's economically sensitive revenues such as park and recreation program fees, interest earnings and certain other charges for services. This has been offset to varying degrees by increases in building permit fees and conveyance taxes. In addition, the supply chain has been disrupted and prices have increased for various types of items, including construction costs. The pandemic has also resulted in labor shortages.

In response to the pandemic and the economic impact on local governments, the federal government has provided the following funding beginning in April 2020 and April 2021. The Town had received grants from the federal government for the costs and impact of the pandemic as follows:

Grant Name	Amount	
Coronavirus Relief Fund ("CRF") American Rescue Plan Act ("ARPA")	\$ 62,024 2,424,722	
Total	\$ 2,486,746	

The second payment of the ARPA grant of \$1,212,362 is to be received in fiscal year 2022.

The Town is continuously monitoring its financial condition and will take proactive measures as necessary to maintain operations and meet its obligations. Given this level of uncertainty, management cannot reasonably estimate the complete impact on the Town's future financial position at this time.

## **IV. Pensions plans**

#### A. Town pension plans

#### 1. Plan description

#### a. Plan administration

The Town administers two single-employer defined benefit pension plans: Town of Haddam Retirement Plan (the Town Employees' Pension Plan) and the Town of Haddam Volunteer Firefighters' Merit Service Retirement Plan (the Volunteer Firefighters' Pension Plan) (the "Plans"). Benefit provisions of the Plans are established and can be amended by the Board of Selectmen. The Town of Haddam Retirement Plan is closed to employees hired after July 1, 2016. The Plans do not issue separate standalone reports and are reported as pension trust funds.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## A. Town pension plans (continued)

#### b. Plan membership

As of June 30, 2021, the membership in the Plans is comprised of the following:

	Town Employees' Plan	Volunteer Firefighters' Plan
Retirees and beneficiaries currently receiving benefits	20	30
Vested terminated plan members	10	48
Active members	15	61
Total	45	139

## 2. Benefit provisions

## Town Employees' Plan

## Volunteer Firefighters' Plan

Normal retirement	Age 65 with 5 years of continuous service	Later attainment of age 65 or 5 years of continuous service	
		Member before July 1, 1990: \$10.00 per month multiplied by years of credited service	
	2.00% average monthly	Member between July 1, 1990 - July 1, 2000: \$15.00 per month multiplied by years of credited service Member between July 1, 2000 - July 1, 2010: \$17.50 per month multiplied by years of credited service

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### A. Town pension plans (continued)

#### 3. Contributions

Contribution requirements of the plan members and the Town are established, and may be amended, by the Board of Selectmen. The Town is required to annually contribute an actuarially determined amount to fund benefits.

Employer contributions to the Town Employees' Pension Plan represented 39.73% of covered payroll. Employer contributions for the Volunteer Firefighters' Plan were \$86,107 compared to the actuarial determined amount of \$124,277.

#### 4. Investments

#### a. Investment policy

The pension plans' policy in regard to the allocation of invested assets is established and may be amended by the Plan Trustees by a majority vote of its members. It is the policy of the Plan to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans

The adopted asset allocation policy for the plan is below.

#### b. Concentrations

There were no investments in any one organization that represented 5% or more of the pension plan's net position.

#### c. Rate of return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation (see the discussion of the pension plans' investment policy) are as follows:

	Target	Long-Term Expected Real
Asset Class	Allocation	Return
Domestic equity	42.00%	6.25%
International equity	18.00%	3.75%
Fixed income	33.00%	2.75%
Real estate and alternatives	7.00%	7.00%
Total	100.00%	
Expected long-term real rate of re	eturn	6.50%

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## A. Town pension plans (continued)

#### d. Annual money-weighted rate of return

The annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was as follows:

	Town	Volunteer
	Employees'	Firefighters'
Rate of return	25.72%	25.67%

The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### 5. Net pension liability

The components of the net pension liability were as follows:

	Town _Employees'	Volunteer Firefighters'
Total pension liability	\$ 5,104,453	\$ 2,509,256
Plan fiduciary net position	5,839,936	2,200,196
Net pension liability (asset)	\$ (735,483)	\$ 309,060
Plan fiduciary net position as a percentage of the total pension liability	114.41%	87.68%

Volunteer Firefighers' Plan

# Town of Haddam, Connecticut

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

Town Employees' Plan

#### 6. Actuarial methods and significant assumptions

The pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement.

Valuation date	June 30, 2021	June 30, 2021
Actuarial cost method	Entry age normal	Entry age normal
Asset valuation method	Fair value	Fair value
Investment rate of return	6.50%	6.50%
Inflation	3.00%	2.00%
Salary increases	4.00%	N/A
Discount rate	6.50%	6.50%
Mortality rates	PRI-2012 Amount Weighted White Collar Mortality Table with Improvement Scale MP-2020	SOA Pub-2010 Mortality Table for Public Safety Employees Adjusted with Improvement Scale MP-2020

#### 7. Changes from prior year

#### a. Changes in assumptions

Town Employees' Plan

 The mortality assumption was updated from PRI-2012 Amount Weighted White Collar Mortality Table with Improvement Scale MP-2019 to Scale MP-2020

Volunteer Firefighters' Plan

• The mortality assumption was updated from to SOA Pub-2010 Mortality Table for Public Safety Employees Adjusted with Improvement Scale MP-2019 to Scale MP-2020.

#### b. Changes in benefit terms

There were no changes in benefit terms.

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### A. Town pension plans (continued)

#### 8. Discount rate

The discount rate used to measure the total pension liability was as follows:

	Town Employees'	Volunteer Firefighters'
Discount rate	6.50%	6.50%

The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's projected fiduciary net position will be sufficient to cover projected benefit payments and administrative expenses indefinitely. Therefore, the long-term expected rate of return on pension plan investments was used to discount plan liabilities.

## 9. Changes in the net pension liability

The Town's net pension liability (asset) was measured at June 30, 2021, and the total pension liability (asset) used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021. The changes in net pension liability (asset) were as follows:

	Increase (Decrease)			
Town Employees' Plan	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (Asset) (a) - (b)	
Balance at July 1, 2020	\$ 5,065,356	\$4,684,243	\$ 381,113	
Service cost Interest Change of benefit terms	118,973 326,495 (23,631)	-	118,973 326,495 (23,631)	
Differences between expected and actual experience Contributions - employer Net investment income	8,967 - -	- 358,931 1,215,394	8,967 (358,931) (1,215,394)	
Benefit payments, including refunds of member contributions Administration	(391,707) 	(391,707) (26,925)	26,925	
Net change	39,097	1,155,693	(1,116,596)	
Balance at June 30, 2021	\$ 5,104,453	\$5,839,936	\$ (735,483)	

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### A. Town pension plans (continued)

	Increase (Decrease)			
Volunteer Firefighters' Plan	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)	
Balance at July 1, 2020	\$ 2,498,802	\$1,783,341	\$ 715,461	
Service cost Interest Change of benefit terms Differences between expected and actual experience Contributions - employer Net investment income	45,245 161,747 (14,798) (70,469) - -	- - - 86,107 456,760	45,245 161,747 (14,798) (70,469) (86,107) (456,760)	
Benefit payments, including refunds of member contributions Administration Net change Balance at June 30, 2021	(111,271) 	(111,271) (14,741) 416,855 \$2,200,196		

## 10. Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability (asset), calculated using the discount rate as well as what the Town's net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate of 6.50%:

Net pension liability (asset)	1% Decrease	Current Discount Rate	1% Increase
Town Employees' Plan	\$ (238,621)	\$ (735,483)	\$ (1,162,691)
Volunteer Firefighters' Plan	640,482	309,060	34,565

#### 11. Pension expense and deferred outflows and inflows of resources

For the fiscal year, the Town recognized pension expense as follows:

Town Employees' Plan	\$ (207,126)
Volunteer Firefighers Plan	82,847

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## A. Town pension plans (continued)

The Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Town Employees' Plan	Deferred Outflows of	Deferred Inflows of	
Description of Outflows/Inflows	Resources	Resources	Net
Differences between expected and actual experience	\$ 35,970	\$ 208,790	\$ (172,820)
Changes in assumptions	-	43,786	(43,786)
Net difference between projected and actual earnings on pension plan investments		633,158	(633,158)
Total	\$ 35,970	\$ 885,734	\$ (849,764)
Volunteer Firefighters' Plan	Deferred Outflows of	Deferred Inflows of	
Description of Outflows/Inflows	Resources	Resources	Net
Differences between expected and actual experience	\$ 98,426	\$ 69,558	\$ 28,868
Changes in assumptions	44,716	43,215	1,501
Net difference between projected and actual earnings on pension plan investments		213,756	(213,756)
Total	\$ 143,142	\$ 326,529	\$ (183,387)

Actual investment earnings below (or above) projected earnings are amortized over 5 years. Changes of assumptions and experience losses (gains) are amortized over the average remaining service period of actives and inactive employees, which were as follows:

Plan	Years
Town Employees' Plan	2.64
Volunteer Firefighters' Plan	6.38

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

## A. Town pension plans (continued)

The amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Town Employees' Plan	Volunteer Firefighters' Plan
2022 2023 2024 2025 2026 Thereafter	\$ (338,620) (173,458) (155,944) (181,742) - -	\$ (9,313) (32,339) (48,833) (74,833) (13,022) (5,047)
Total	\$ (849,764)	\$ (183,387)

## B. Total pension plans

Plan	Net Pension Asset	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense
Town Employees' Plan Volunteer Firefighers Plan	\$ 735,483 	\$- 309,060	\$ 35,970 143,142	\$ (885,734) (326,529)	\$ (207,126) 82,847
Total	\$ 735,483	\$ 309,060	\$ 179,112	\$(1,212,263)	\$ (124,279)

## Notes to the Financial Statements As of and for the Year Ended June 30, 2021

#### C. Defined contribution retirement savings plan

The Town established a defined contribution plan effective July 1, 2018 to provide benefits at retirement to employees of the Town. The Board of Selectmen and First Selectman administers this single employer defined contribution benefit plan. All full-time employees of the Town are eligible to participate in the defined contribution plan and there are no required employee contribution amounts. Plan provisions and contribution requirements are established by an ordinance approved by the Town's Board of Selectman and may be amended by the Board subject to various bargaining unit approvals.

The Plan requires the Town to contribute a minimum of 3% for all employees participating in the plan up to a 5% matching contribution. Employees are fully vested in all employee contributions and are fully vested after 1,000 hours worked in a year for employer contributions.

There are 10 participants in the plan. During the fiscal year, employees contributed \$34,523 and the Town contributed \$18,796. Covered payroll totaled \$384,850.

## Notes to Required Supplementary Information

## Budgets and Budgetary Accounting For the Year Ended June 30, 2021

The Town adheres to the following procedures in establishing the budgetary data included in the general fund financial statements in accordance with State Statutes. The operating budget, which is prepared by function and department, includes proposed expenditures and the means of financing them.

Formal budgetary integration is employed as a management control device during the year.

The budget is adopted on a basis consistent with generally accepted accounting principles (GAAP) (modified accrual basis).

The budget is recommended by the Board of Finance at a Town Meeting in May.

The legal level of control (the level at which expenditures may not legally exceed appropriations) is at the department level.

The Board of Finance is authorized to transfer budgeted amounts within and between departments and to approve the first additional appropriation for a department, not to exceed \$27,900, in any one year. Additional appropriations after the first or in excess of \$27,900 must be approved by vote of a Town Meeting.

During the year, there were additional appropriations from increased revenue appropriations of \$730,085.

# Supplemental Schedules

# General Fund

The general fund is the principal fund of the Town and is used to account for all activities of the Town, except those required to be accounted for in another fund. The general fund accounts for the normal recurring activities of the Town (i.e., general government, public safety, public works, health and welfare, culture and recreation, education, debt service, and capital outlay). These activities are funded principally by property taxes, user fees and grants from other governmental units.

This part of the Town's annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Town's overall financial health.

Table	Description
Financial Trends (Tables 1-2)	These schedules contain trend information to help the reader understand how the Town's financial performance and well-being have changed over time
Revenue Capacity (Tables 3-5)	These schedules contain trend information to help the assess the Town's most significant revenue source, property taxes
Debt Capacity (Table 6-10)	This schedule presents information to help the reader assess the affordability of the Town's current levels of outstanding debt and the Town's ability to issue additional debt in the future

Sources: Unless otherwise noted, the information in these schedules is derived from the annual financial for the fiscal year

#### Notes:

71

#### General fund: Unassigned

Increased due to positive operations for the year

All other governmental funds:

Committed	Increase due to increase in the capital nonrecurring fund balance
Assigned	Increase due to the positive operations of the debt service fund
Unassigned	Increased mostly due to positive operations of the capital or nonrecurring fund

## Direct and Overlapping Debt June 30, 2021 (Unaudited)

Government Unit	Debt Outstanding	Estimated Percentage Applicable	Amount Applicable to Town
Regional School District No. 17	\$ 8,610,000	60.60%	\$ 5,217,660
Town of Haddam direct debt			14,570,864
Total direct and overlapping debt			\$ 19,788,524

Sources: Outstanding debt and applicable percentages provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with geographic boundaries of the Town. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property taxpayers of the Town of Haddam, Connecticut. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

## Schedule of Debt Limitation Connecticut General Statutes, Section 7-374 (b) For the Year Ended June 30, 2021 (Unaudited)

## Tax Base:

Total tax collections (including interest and lien fees) for prior year

\$ 30,152,219

Debt limitation:	General Purpose Schools		Sewers	Urban Renewal	Pension Deficit			
2 1/4 times base	\$ 67,842,493	\$ -	\$-	\$-	\$ -			
4 1/2 times base	-	135,684,986	-	-	-			
3 3/4 times base	-	-	113,070,821	-	-
