### Road Work in Haddam Neck?

Haddam's Municipal Liaison from Eversource, Patricia Bandzes has confirmed that Eversource has plans for additional improvements and maintenance to our electric system in Haddam Neck through the end of this year. Additionally, Eversource is planning to install a new fence at the Haddam Neck Substation on Cove Road that will require extensive truck traffic. Because of this, Eversource is recommending that we postpone paving until the spring of 2018. Eversource will continue to keep us informed if their plans or schedules change due to weather or unexpected circumstances.
