Fire Department Response and Suppression Capabilities

The Town of Haddam has no public water supply.
Haddam meets the response guidelines of NFPA 1720 (2014) for Rural Area Volunteer Fire Departments.

The Haddam Volunteer Fire Company serves Haddam (06438) and Higganum (06441).

It has the following fire apparatus:

Three (3) 1,000 gallon Class A Pumpers and

One (1) 2,400 gallon Tanker Truck.

Total Water Capacity on wheels = 5,400 gallons.

There are also standpipes located at numerous subdivisions throughout town that are connected to underground cisterns that contain 10,000 gallons of water each.

The Haddam Neck Volunteer Fire Company serves Haddam Neck (06424).

It has the following fire apparatus:

One (1) 1,000 gallon Class A Pumper and

One (1) 1,500 gallon Tanker Truck.

Total water capacity on wheels = 2,500 gallons.

Automatic Mutual Aid from East Hampton brings additional 3,500 gallons on first alarm.

Mutual Aid: The Town of Haddam belongs to the Valley Shore Mutual Aid Association. Several of our adjoining towns are automatically dispatched on the first alarm of a structure fire. In addition, Tanker Task Force Level I and II are each designed to deliver 10,000 gallons of water on demand.

Haddam fire stations are:

Haddam Company 1: 439 Saybrook Road, Higganum, CT 06441

Haddam Company 2: 1010 Saybrook Road, Haddam, CT 06438

Haddam Company 3: 1040 Killingworth Road, Higganum, CT 06441

Haddam Neck Company: 50 Haddam Neck Road Haddam Neck, CT 06424
